PAGE

Under Pressure Repair to Pipelines and Associated Equipment. C. W. Osborn 1
Estimation of 2,4-Dimethyl, 6-Tertiary Butyl Phenol in Aviation Turbine Fuel by Thin Layer Chromatography. R. Amos 9
Calculation of the Motor Octane Number from the Research Octane Number. G. I. Jenkins . . 14
Correspondence: **The Electrostatic Hazard During Loading of Petroleum Products into Glass-Reinforced Plastic Tanks** 19
Obituary: **William Frank Jelffs** 20
Economics of Petroleum Refining—Present State and Future Prospects. P. H. Frankel and W. L. Newton 23
Report on the Proposed Method of Classifying Mineral Oils by a "Seal Compatibility Index". Working Party "A2", Association of Hydraulic Equipment Manufacturers 36
A Statistical Analysis of Car Ownership by Counties in Great Britain and a Forecast for 1975. B. V. Wagle 44
The Compactness of the Aromatics Systems in Petroleum Asphaltics. Teh Fu Yen and John P. Dickie 50
Planning of Optimum Production from a Natural Gas Field. J. van Dam 55
Determination of the Fraass Breaking Point. C. J. Krom 68
Control of Front-end Volatility of Motor Gasolines. Calculation of Vapour/Liquid Ratios from the Reid Vapour Pressure and Distillation Test. G. I. Jenkins 80
Vocational Training for Graduates in Exploration. D. W. N. Dolbear 87
The Construction of Shell/Esso 30-inch/4-inch Twin Submarine Pipelines from North Sea Block 49/26 to the Norfolk Coast. W. H. Berry 94
Acid Precipitation of Crude Oil Asphaltenes—Structural Implications. S. W. Nicksic and M. J. Jeffries-Harris 107
A Miniature Oil Circuit for the IAE 3¼-inch Centres Gear Lubricant Testing Machine. J. E. Henshaw 115
The Segregation of Gas Evolved in Liquid Saturated Porous Media. Part 1. Apparatus and Experimental Methods. C. G. Wall and M. J. Smart 117
Part 2. Visual Model of Gas Phase Behaviour. C. G. Wall, M. J. Smart, and A. K. Khurana . 124
Palaeolatitude in Relation to Petroleum. Student Essay. B. F. Hood 133
Use of Differential Thermal Analysis for Determining Glass Transitions in Asphalts. H. J. Connor and J. G. Spiro 137
Correspondence: **The Electrostatic Hazard During Loading of Petroleum Products into Glass-Reinforced Plastic Tanks.** R. Tinson 140
A Determination of the Precision of Measuring Small Oil Transfers by Manual Dipping and Temperature Measurement. P. B. Smith 141
Officers and Council 1967 153
Annual Report and Accounts for 1967 157
Fifty-fifth Annual General Meeting 172
Obituary: **Anthony Richard Philpotts, Evelyn Herbert** 176
Interfuel Competition for Future Energy Markets. Richard J. Gonzalez 177
Reclamation of Soil Contaminated with Oil. R. B. Schwendinger 182
Lubricating Oil Additives—A Chemist's Eye View. J. F. Ford 198
The Immediate Past-President: Tribute to N. A. Leslie 211
Raising of High Pressure Steam from Brackish Lake Maracaibo Water. I. C. McLennan . . 213
Determination of the Wax Content of Bitumens. C. J. Krom 232
A Technique for Determining Droplet Size Distributions Using Liquid Nitrogen. P. J. Street and V. E. J. Danaford 241
The Effect of Tetraethyl-lead on Flame Propagation and Cyclic Dispersion on Spark-Ignition Engines. R. J. Ellison, G. A. Harrow, and B. M. Hayward 243
Problems and Techniques in Producing Gas Wells in South-West France. F. Vermersch . . 251
Report on the Work of the IP Oxidation Tests Panel. R. L. Martin 259

PAGE

Obituary: **John A. Oriel** 261
Deaths: **G. W. D'Arcy Evans, N. M. Ekserdjian, H. G. Howson, W. M. Stirling, S. Watson, N. A. Ralph, and J. J. Detwiler** 263
Quantitative Hydrocarbon Gas Analysis Using Aluminar-Packed Glass Capillary Columns. N. G. McTaggart, C. A. Miller, and B. Pearce 265
Detection and Control of Processing Plant Losses. S. A. Berridge and R. F. Linsell 278
Identification of Slop Oils—an Aid in Tracing Refinery Leaks. R. D. Cole 288
Obituaries: **Nicolas P. Ekonomopoulos, Leonard A. Phillips, and Robert Bentham** 297
Obituary: **E. R. Redgrave** 298
Symposium on Scientific Aspects of Pollution of the Sea by Oil
Opening Address: A. W. Pearce, President of the Institute 299
The Properties of Persistent Oils at Sea. S. A. Berridge, R. A. Dean, R. G. Fallows, and A. Fish 300
Analysis of Beach Pollutants. J. V. Brunnock, D. F. Duckworth, and G. G. Stephens 310
Identification of Petroleum Sources of Beach Pollution by Gas-Liquid Chromatography. S. J. Ramsdale and R. E. Wilkinson 326
The Formation and Stability of Emulsions of Water in Crude Petroleum and Similar Stocks. S. A. Berridge, M. T. Thew, and A. G. Loriston-Clarke 333
Problems in Dealing with Oil Pollution on Sea and Land. J. Wardley Smith 358
Obituary: **Arthur Beeby-Thompson, O.B.E.** 367
Determination of Small Amounts of Manganese in Gasolines Containing Tetraethyl Lead and and Manganese Anti-knock Agents. G. B. Kyriakopoulos 369
Determination of TEL in Gasolines Containing Manganese Additives. G. B. Kyriakopoulos . . 376
Application of Computers in Formation Evaluation. R. M. van der Graaf 380
Deaths: **J. C. Gridley, G. W. Halse, V. T. E. Rodda** 385

INDEX OF AUTHORS AND CONTRIBUTORS TO DISCUSSIONS

ADEY, S. W., on refining economics, 35
AMOS, R., Estimation of 2,4-Dimethyl, 6-Tertiary Butyl Phenol in Aviation Turbine Fuel by Thin Layer Chromatography, 9–13

BELL, W. P., on oil sludge destruction, 365
BERESFORD, R. H., on refining economics, 34
BERRIDGE, S. A., DEAN, S. A., FALLOWS, R. G., and FISH, A., The Properties of Persistent Oils at Sea, 300–9
BERRIDGE, S. A., THEW, M. T., and LORISTON-CLARKE, A. G., The Formation and Stability of Emulsions of Water in Crude Petroleum and Similar Stocks, 333–57
BERRY, W. H., The Construction of Shell/Esso 30-inch/4-inch Twin Submarine Pipelines from North Sea Block 49/26 to the Norfolk Coast, 94–106
BISKE, V., on small oil transfers, precision determination, 151
BLOKKER, P. C., on the properties of persistent oils at sea, 308
BOND, L. C., on graduate exploration training, 91
BROCKIE, G. J., on the properties of persistent oils at sea, 307, 308
BRUNNOCK, J. V., DUCKWORTH, D. F., and STEPHENS, G. G., Analysis of Beach Pollutants, 310–25
BRUNNOCK, J. V., on identification of oil on polluted beach, 331, 332
BUTCHER, L. F., on disposal in pollution accidents, 365

CARPENTER, C. E., on identification of oil on polluted beach, 331
CONNOR, H. J., and SPIRO, J. G., Use of Differential Thermal Analysis for Determining Glass Transitions in Asphalts, 137–9
COVILL, R. W., on identification of oil on polluted beach, 332
CRANSTON, D. B., on pipelines and equipment, pressure repair, 6

DANAFORD, V. E. J. *See* STREET, P. J., 241–2
DAVENPORT, T. C., on small oil transfers, precision determination, 151
DAVIDSON, R. R., on oil pollution problems, 364
DAVIES, E. B., on small oil transfers, precision determination, 151
DAVIES, JUNE A., on the properties of persistent oils at sea, 307
DAVIES, JUNE A., on formation and stability of oil-water emulsions, 356
DEAN, R. A. *See* BERRIDGE, S. A., 300–9
DICK, J. J. P., on formation and stability of oil-water emulsions, 357
DICKIE, J. P. *See* YEN, T. F., 50–3
DIEDERICHSEN, J., on the properties of persistent oils at sea, 307
DOLBEAR, D. W. N., Vocational Training for Graduates in Exploration, 87–93
DUCKWORTH, D. F. *See* BRUNNOCK, J. V., 310–25
DUCKWORTH, D. F., on formation and stability of oil-water emulsions, 356, 357

ELLISON, R. J., HARROW, G. A., and HAYWARD, B. M., The Effect of Tetraethyl-lead on Flame Propagation and Cycle Dispersion in Spark-Ignition Engines, 243–50

FALLOW, R. G. *See* BERRIDGE, S. A., 300–9
FISH, A. *See* BERRIDGE, S. A., 300–9
FORD, J. F., Lubricating Oil Additives—A Chemist's Eye View, 198–210
FRANKEL, P. H., and NEWTON, W. L., Economics of Petroleum Refining—Present State and Future Prospects, 23–35
FREEGARDE, M., on future oil pollution problems, 364
FREEGARDE, M., on fate of dispersed oil at sea, 365
FRENCH, K. H. V., on small oil transfers, precision determination, 151

GASKELL, T. F., on identification of oil on polluted beach, 332
GIBSON, N. *Correspondence:* The Electrostatic Hazard During Loading of Petroleum Products into Glass-Reinforced Plastic Tanks, 19
GONZALEZ, R. J., Interfuel Competition for Future Energy Markets, 177–81
GOODFELLOW, A. J., on small oil transfers, precision determination, 151
GUNKEL, W., on the properties of persistent oils at sea, 308, 309
GUNKEL, W., on identification of oil on polluted beach, 331

HARRISON, R. K., on pipelines and equipment, pressure repair, 7
HARROW, G. A. *See* ELLISON, R. J., 243–50
HAWES, J., on pipelines and equipment, pressure repair, 8
HAYWARD, B. M. *See* ELLISON, R. J., 243–50
HENSHAW, J. E., A Miniature Oil Circuit for IAE 3¼-inch Centres Gear Lubricant Testing Machine, 115–16
HERRING, P. J., on identification of oil on polluted beach, 332
HOBSON, G. D., on graduate exploration training, 91
HOLDSWORTH, M. P., on the properties of persistent oils at sea, 308
HOOD, B. F., Palaeolatitude in Relation to Petroleum Genesis, 133–6
HUBBARD, M. E., on refining economics, 32

JAGGER, H., on small oil transfers, precision determination, 150
JAGGER, H., on identification of petroleum sources of beach pollution, 332

SUBJECT INDEX

Additives, lubricating oil, 198–210
Analysis, oil from polluted beach, 310–25
Asphalt, asphaltenes:
  acid precipitation, implications, 107–14
  aromatic systems, 50–3
  glass transmission determination, 137–9
Aviation turbine fuel, phenol determination by chromatography, 9–13

Bacteria seeding, oil-impregnated soil, 182–97
Bitumen:
  breaking point, Fraas, 68–79
  wax content, 232–40
Butyl phenol estimation, thin layer chromatography, 9–13

Car ownership, British counties, 44–9
Chromatography, gas, use of Al-packed column, 265–77
Chromatography, thin layer, 24M6B estimation in jet fuel, 9–13
Classification, oil, "seal compatibility index", 36–43
Computer application in formation evaluation, 380–4

Differential thermal analysis, glass transitions in asphalts, 137–9

Economics, refining, 23–35
Electrostatic hazard, glass-plastic tanks, (*Correspondence*), 140

Deaths:
  Detwiler, J. J., 263
  Ekserdjian, N. M., 263
  Evans, G. W. D'Arcy, 263
  Howson, H. G., 263
  Ralph, N. A., 263
  Stirling, William, 263
  Watson, S., 263

Emulsion formation and stability, water-crude and like stocks, 333–57
Energy markets, interfuel competition, 177–81
Equipment, pipeline, repair under pressure, 1–8
Exploration, training for graduates, 87–93

Formation evaluation by computer processing, 380–4
Fraas breaking point determination, 68–79

Gas, hydrocarbon, analysis by capillary column, 265–77
Gas-liquid chromatography, identification, source of oil, 326–32
Gas, natural:
  production, optimum, planning, 55–67
  segregation, saturated media:
    apparatus, methods, 117–23
    behaviour studies, 124–32
  wells, France, techniques and problems, 251–8
Gasoline:
  ionization probes, tetraethyl-lead effect, 243–50
  volatility control, front-end, 80–5
Genesis, oil, and palaeolatitude, 133–6
Graduate training in exploration, 87–93

Hydraulic oil classification, "seal compatibility index", 36–46

IAE gear test rig, miniature oil circuit, 115–16
Institute of Petroleum:
  annual general meeting, 172–4
  annual report, 157–71
  oxidation test panel report, 259–60
Ionization probes, gasoline, 243–50

Jet fuel, phenol estimation, 9–13

Leaks, oil refinery, tracing, 288–96
Loading plastic tanks, electrostatic hazard, (*Correspondence*), 19, 140
Lubricant testing, IAE gear test rig, 115–16
Lubricating oil additives, 198–210

Manganese in gasolines containing TEL and AK-33K, determining small amounts, 369–75
Marketing, interfuel competition, 177–81
Measurement, small oil transfers in tanks, 141–52
Mineral oil classification, "seal compatibility index", 36–43

North Sea pipelines, Shell/Esso twin submarine, 94–106

Obituary:
  Beeby-Thompson, Arthur, 367
  Bentham, Robert, 297
  Ekonomopoulos, Nicholas P., 297
  Herbert, Evelyn, 176
  Jelffs, William Frank, 20
  Oriel, John A., 216
  Phillips, Leonard A., 297
  Philpotts, Anthony Richards, 176
  Redgrove, E. R., 298
Octane number:
  Calculation of motor from research, 14–18
Oxidation test panel report, IP, 259–60

Palaeolatitude and petroleum genesis, 133–6
Persistent oils at sea, properties, 300–9
Pipelines:
  repair under pressure, 1–8
  Shell/Esso twin submarine, North Sea, 94–106
Pollutants, beach, analysis of oil, 310–25
Pollution, oil problems, sea and land, 358–65
Production, oil, gas phase behaviour:
  apparatus, methods, 117–23
  model studies, visual, 124–32

Refinery leaks, tracing, 288–96
Refining economics, present and prospects, 23–35

"Seal compatibility index", hydraulic oil, 36–43
Slop oil, tracing refinery leaks, 288–96
Soil, oil contaminated, reclamation, 182–97
Source of oil, polluted beach, gas-liquid chromatography, 326–32
Steam, high pressure, from brackish water, 213–31
Symposium on oil pollution at sea, 299–366

Tanks:
  oil transfers, small, measurement, 141–52
  plastic, glass reinforced, electrostatic hazard, (*Correspondence*), 19, 140
TEL determination in gasolines containing manganese additives, 376–9
Tetraethyl-lead, flame propagation, cyclic dispersion, 243–50
Turbine fuel, aviation, 24M6B estimation, 9–13
Turbine oil, IP oxidation test panel report, 259–60

Vapour/liquid ratio calculation, gasoline, 80–5

Water, Lake Maracaibo, high pressure steam from, 213–31
